

COPPER | TAN F.23

MOOD

Rich and heart-warming. Reminiscent of the treasured copper pans from country house kitchens.

Our deeply patinated copper works well with furniture that enjoys careful or occasional use.

SURFACE

Our oiled and waxed finishes on copper are hard wearing and offer good resistance to finger and water marks. However, anything acidic such as fruit juice or ketchup should be avoided.

CONSIDERATIONS

Our hand applied finishes, and the natural metals we use will vary slightly.

SAMPLES

Copper samples of this finish may be ordered at a cost of £20 + vat each (including postage).

Contact camilla@matthewcox.com to request samples.
